## ENERGY SOLUTIONS

### CAPABILITIES:

#### ENERGY EFFICIENCY

Proven technologies that, when used together, increases existing and new HVACR systems to achieve an **additional 20%-75% or more energy savings and increased service life without voiding equipment warranties. One-time application.**

Complements existing BMS/BAS systems.

#### ENERGY GENERATION

We perform consulting, assessment, design, and installation of microgrids, data center power, energy storage, and photovoltaics.

#### CONSTRUCTION

We offer light, heavy, and sustainable building construction.

#### DFARS COMPLIANT:

252.204-7012 / NIST 800-171

Progress towards CMMC level 2 compliance

**Native Hawaiian Organization**

### BUSINESS SUMMARY

Founded by a **veteran with 30+ years in the energy industry**, Ulu Niu provides innovative **energy solutions that protect the environment and reduce energy costs** for federal, commercial, industrial, and residential clients across the U.S., Indo-Pacific, and Europe.

### DIFFERENTIATORS

- Directors and the management team have significant energy and policy experience.
- We offer a complimentary assessment to estimate savings costs.
- Funding alternatives, including Energy as a Service (EaaS), where the energy savings pay for the projects.

### PAST PERFORMANCE

- Over \$1.4M in energy and energy efficiency work in the commercial sector.
- Over \$100M in federal construction work.

### CURRENT PROJECTS

- IPMVP: residential neighborhood in Hawaii
- 5MW/20MWh engineering/EPC project in AZ
- INDU Marquette Trail & Bridge for NPS
- Energy efficiency project in Bakersfield, CA
- System planning for a city in Utah
- Lease negotiations on behalf of a landowner
- PPA negotiations with RE plant owner
